Could a Tesla be used to power Ukrainian homes? Ukrainians are turning to Teslas to help power their homes and limit the impact of Russian strikes on energy infrastructure, a report in the Financial Times said. One Ukrainian businessman who is repurposing Tesla batteries told the FT that one Tesla could be used to make up to 12 battery systems.

Why are Ukrainians repurposing old Tesla batteries? Ukrainians are turning to Teslas to power their homes amid rolling blackouts. Some are repurposing old Tesla batteries, while others have gone even further. It comes as the country adapts to rolling blackouts caused by Russian targeting of the energy grid.

How many Tesla batteries can a Ukrainian businessman make? One Ukrainian businessman who is repurposing Tesla batteries told the FT that one Tesla could be used to make up to 12 battery systems. "An old Tesla, including the cost of delivery, will be nearly \$10,000.

Is Tesla offering free Supercharging in Ukraine? Elon Musk owned e-vehicle company, Tesla, reportedly started to offer free supercharging for vehicles in Ukraine for people fleeing the country amid Russia's invasion. A recent viral video, depicting the emergency Ukraine is facing due to its war with Russia, shows the long queue of electric vehicles at one of Tesla's supercharging stations.

Will Tesla emerge unscathed from Ukraine crisis? Fremont factory, Morgan Stanley analyst Adam Jonas came away confident of the company's ability to emerge unscathed from the Ukraine crisis-induced raw materials shortages. What Happened: Tesla has long-term contracts in place that will act as a hedge against any hike in raw material prices, Jonas said.
