

ULTRA-LARGE POWER STORAGE BOX INSTALLATION

How do I install the xstorage battery packs? You can install the xStorage battery packs only within the Eaton xStorage battery rack and connect them with the Eaton xStorage energy storage systems. Install the rack only on a non-flammable floor. Do not lift any of the packed or unpacked units without help or an adequate machine lifter. There is a risk of injury.

What is great power energy storage? Easy maintenance: Modular design for convenient on-site maintenance. Great Power's energy storage products find widespread applications in various sectors, including utility-scale, commercial and industrial, UPS communication base station backup power, residential, and portable energy storage.

How many Battery strings does the xstorage compact unit contain? The xStorage Compact unit contains 1 battery string. The external battery rack can contain 1 or 2 strings (1 master battery pack and 4 or 9 battery packs). With the external battery rack, the energy capacity can be tripled, see Table 2: Number of battery strings based on energy capacity.

What is the energy storage capacity of a photovoltaic system? The photovoltaic installed capacity set in the figure is 2395kW. When the energy storage capacity is 1174kW h, the user's annual expenditure is the smallest and the economic benefit is the best. Fig. 4. The impact of energy storage capacity on annual expenditures.

What is the xstorage compact control panel? It is a dual-purpose device, providing both a local user interface for the control of the single xStorage Compact unit, and the means to manage application-specific functions of the larger energy storage system. As default, the control panel is placed on the front door of the system cabinet.

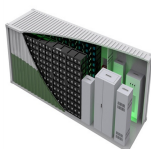

ULTRA-LARGE POWER STORAGE BOX INSTALLATION

How many Battery strings can be installed in Eaton xstorage compact?
One battery string (1 master battery pack and 4 battery packs) is installed in the Eaton xStorage Compact 20 kW - 40 kW unit. Up to 2 battery strings(1 master battery pack and 4 or 9 battery packs) can be installed in the external battery rack for more energy capacity. Figure 8. Battery power options A,B and C

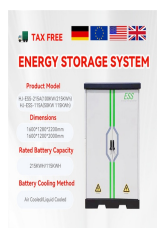

This paper considers the annual comprehensive cost of the user to install the photovoltaic energy storage system and the user's daily electricity bill to establish a bi-level ???
