---

Who are Waxman energy? Sought after in a variety of markets including technical textiles and industrial end uses, they are the first choice for all round premium quality and safety. Award-winning experts in renewable energy solutions, Waxman Energy Ltd. is one of the UK's largest distributors of PV modules, inverters, mounting systems and EV chargers.

Who is Waxman solar? Specialist in the field of solar mounting systems. We source the highest quality products from some of the world's leading brands. Part of the Waxman Group, which has over 75 years of experience in distribution. We are all about putting people first, and have a reputation for excellent customer service.

How does Waxman energy support installers? Waxman Energy supports installers every step of the way, offering technical expertise, exceptional customer service, and valuable training opportunities. Congratulations to the entire Waxman Energy team for this well-deserved recognition! With the variety of products we distribute within the Waxman Group, people often find it confusing

What makes Waxman unique? This philosophy is at the heart of Waxman and has led us from the distribution of flame retardant fibres, ceramic tiles and renewable energy technologies including battery storage and EV chargers.

Who is Waxman battery storage? Partnering with leading battery manufacturer VARTA Storage, Waxman Battery Storage distributes storage systems for both households and larger scale storage requirements.

Enjoy real-time monitoring and seamless configuration for smarter energy management. Elevate your energy experience with dual MPPTs, Global MPP scan, and I-V curve diagnosis for component detection, delivering unmatched performance and convenience for a smarter, more efficient lifestyle. Key Features: Maximum efficiency 98%; Dual MPPT

The Triple Power 3.6kWh battery can be used in conjunction with the Solax X1/X3 Hybrid G4 Inverters to create aesthetically pleasing residential energy storage systems. For X1-HYBRID G4 or X1-FIT G4 model: 2~8 batteries can be installed to achieve 7.2kWh ~ 28.8kWh with one tower/stack installation.

Founded in 1997 by University Professor Cao Renxian, Sungrow is a leader in the research and development of solar inverters with the largest dedicated R& D team in the industry and a broad product portfolio offering PV inverter solutions and energy storage systems for utility-scale, commercial, industrial, and residential applications, as well
