

WHEN WILL THE NEW ENERGY STORAGE REGULATIONS BE ISSUED

What is the 'guidance on accelerating the development of new energy storage? Since April 21, 2021, the National Development and Reform Commission and the National Energy Administration have issued the ???Guidance on Accelerating the Development of New Energy Storage (Draft for Solicitation of Comments)??? (referred to as the ???Guidance???), which has given rise to the energy storage industry and even the energy industry.

What is the implementation plan for the development of new energy storage? In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

When will new energy storage development be introduced? The commission said earlier it will introduce a plan for new energy storage development for 2021-25 and beyond, while local energy authorities should also make plans for the scale and project layout of new energy storage systems in their regions.

What is the 'guidance' for the energy storage industry? Based on the above analysis, as the first comprehensive policy document for the energy storage industry during the ???14th Five-Year Plan??? period, the ???Guidance??? provided reassurance for the development of the industry.

Will China achieve full market-oriented development of new energy storage by 2030? The country has vowed to realize the full market-oriented development of new energy storage by 2030, as part of efforts to boost renewable power consumption while ensuring stable operation of the electric grid system, a statement released by the National Development and Reform Commission and the National Energy

WHEN WILL THE NEW ENERGY STORAGE REGULATIONS BE ISSUED

Administration said.

WHEN WILL THE NEW ENERGY STORAGE REGULATIONS BE ISSUED

Why did the energy industry release the 'guidance'? The industry has given a high degree of recognition to the release of the Guidance and positive feedback. On July 23, the National Development and Reform Commission and the National Energy Administration formally issued the "Guidance" after fully soliciting suggestions from all walks of life.

China's First Large-capacity Supercapacitor Hybrid Energy Storage Frequency Regulation Project Successfully Went Online Feb 27, 2023
May 16, 2022 NDRC and the National Energy Administration of China Issued the New ???

property; (ii) for Soy, a new substation and switch yard connected to the high-voltage 230 kilovolt (kV) transmission system passing immediately adjacent to the proposed BESS property; and ???

The policy proposes to promote the large-scale application of energy storage, and support the integrated development of new energy sources such as photovoltaics and energy ???

On 28 May 2024, the State Administration for Market Regulation issued the Design Requirements for Floating Offshore Wind Turbines, filling a gap in the industry's design standards for floating offshore wind turbines. the ???

WHEN WILL THE NEW ENERGY STORAGE REGULATIONS BE ISSUED

These rules will officially come into force on July 1st, 2024. This marks the first time in 20 years that China's power market operation rules have undergone changes. Compared to previous and existing legislation, the new ???
