Leicester power stations are a series of electricity generating stations that have provided electric power to the City of Leicester and the wider area from 1894. The first station, located within Aylestone gas works, supplied electricity for street lighting. The city's new electric tram system was supplied from 1904 by a station at Lero which operated until 1930.

We manufacture professionally the plant protection machinery, garden machinery, cleaning machinery, gasoline engine, and so on From gas to battery power, straight to curved shaft, trimmer lines to cutting blades, loop to bike handles, you'll find a STIHL that's right for you.
