One of the first signs of a potential scam is unsolicited approaches or door-to-door sales. A reputable solar panel company does not typically use these tactics and instead is more likely to rely on referrals or marketing campaigns. As we mentioned before, another red flag is excessive discounts or too-good-to-be-true offers.

This not only ensures that the work meets industry standards, but it also means you can benefit from the Smart Export Guarantee (SEG). The SEG pays you for the solar energy your panels produce that you don't use, but only if your system is MCS certified. but the company's website says that a solar panel and battery installation costs
