

WHICH WELLINGTON ENERGY STORAGE COMPANIES ARE THERE

Who owns the battery energy storage system in Wellington? Ampyr Australia, the local arm of Singapore-based outfit Ampyr Energy says it has agreed with Shell Energy Australia to jointly develop, own and operate the battery energy storage system in Wellington. Once operational, Shell Energy will hold the rights to charge and dispatch energy from the BESS.

What is the Wellington Battery energy storage system (BESS)? The Wellington Battery Energy Storage System (BESS) is planned to be developed in the central west New South Wales (NSW), Australia. The project will comprise a grid-scale BESS with a total discharge capacity of around 400MW. AMPYR Australia, a renewable energy assets developer in the country, owns 100% of the BESS project.

What is the target capacity of the Wellington Bess? The target capacity of the Wellington BESS is 500 MW /1,000 MWh, making it one of the largest battery storage projects in NSW. The Wellington BESS will connect to the adjacent TransGrid Wellington substation, adjacent to the Central West Orana Renewable Energy Zone (Central West Orana REZ).

When will ampyr & shell energy build the Wellington Bess project? The Wellington BESS project is being jointly developed by AMPYR and Shell Energy. Subject to securing all relevant approvals, authorisations and financing, construction is expected to commence in mid-2023. Once operational, Shell Energy will hold the rights to charge and dispatch energy from the Wellington BESS.

What is the Wellington Bess? The Wellington BESS will connect to the adjacent TransGrid Wellington substation, adjacent to the Central West Orana Renewable Energy Zone (Central West Orana REZ). It will complement nearby existing renewable energy generation assets as well as the proposed additional generation to be delivered as part of the Central West Orana REZ.
