

# YINLONG AUTOMOBILE ENERGY STORAGE FIELD SPACE

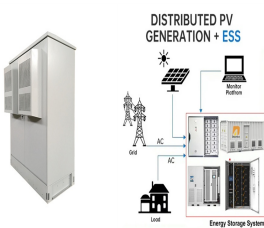

As a new energy technology-based enterprise that has been deeply involved in the field of energy storage, Gree Titanium has already forged industry-leading technological strength through independent technological innovation and application research in new energy vehicle manufacturing and energy storage.

The combined offering provides urban transportation operators with a complete, one-stop shop e-mobility solution to reduce city air and noise pollution. Yinlong Energy Middle East today announced it has signed a memorandum of understanding with Hitachi ABB Power Grids, to help cities speed up their transition to emission-free electric bus transportation and cleaner city air.

Now, Gree Electric has become the controlling shareholder of Yinlong New Energy, and Dong Mingzhu is getting closer to her visions in the automobile industry. Yinlong New Energy has more than 40 production lines for lithium titanate and LFP, and the overall actual battery production capacity is about 18.31GWh/year.

Yinlong New Energy Vehicle Makes a High-profile Appearance at 2016 IEEV China. 17 October 2016. : From October 13 to 16, 2016 Energy-saving and New Energy Automobile Industry Development Plan Achievement Exhibition, also known as 2016 IEEV China, is held in Beijing National Convention Center. As the highest level of exhibition

Hitachi ABB Power Grids and Yinlong Energy collaborate to make urban bus transportation green and cities carbon neutral. Grid-eMotion Fleet is a grid-code compliant and space-saving grid-to-plug charging solution that can be installed in existing depots and scaled flexibly as the fleet gets greener. Electric Trucks and Energy Storage

Yinlong Energy Co., Ltd, has been in the leading position in new energy auto and energy storage system based on its advanced technology these year. In 2015, Yinlong Energy Co., Ltd. was closed watched in the capital market and completed two rounds of equity financing, successfully introduced a number of large strategic investors, including

Yinlong Energy Storage has emerged as a crucial player in the field of energy solutions, particularly in energy storage technology. As renewable energy sources become more widespread, the need for effective storage systems is paramount. Yinlong's products cater to this demand, ensuring that energy generated from renewable sources can be

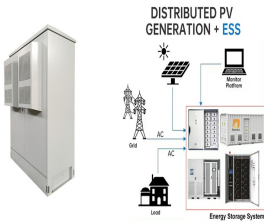

As the "shining star" in Yinlong buses, in 2018, 18m dolphin bus won the "Chinese Patent Award -- Gold Award in Appearance Design", which is the only product selected in the new energy vehicle industry. On this basis, Yinlong Energy combines urban culture, characteristics and the image logo representing urban civilization to help create new

With the addition of powerful entrepreneurs such as Dongmingzhu, Wang Jianlin, and Liu Qiangdong, lithium titanate batteries are standing in the spotlight, lithium titanate batteries are getting hotter, and Yinlong New Energy is indispensable. At the seminar, Yaogaoliang, general manager of Yinlong New Energy Storage Division, and Zhanshiying, ???

# YINLONG AUTOMOBILE ENERGY STORAGE FIELD SPACE

Founded in 2008, Yinlong Energy Co., Ltd. is a group company involved in global comprehensive new energy industry, integrated R & D, production and sales of Titanium material, battery, electric motor & controller, charging equipment, intelligent energy storage and pure electric vehicle, as well as power batteries recycle for cascading utilization.

Gree and Yinlong, which is controlled by Dong, frequently team up in the new energy field. Gree moved to acquire electric bus maker Yinlong for CNY13 billion (USD1.83 billion) in 2016 but it faced unexpected opposition from small- and medium-sized investors. Dong then took a stake in Yinlong in her own name, becoming its second-largest shareholder.

Advantages of Yinlong Industrial Energy Storage System . a. Excellent High Rate Performance brought by rising proportion of electricity from new energy power generation and the increasing load demand from new energy vehicle charging needs. 5. Application Case On Power Grid Frequency Modulation . a. Hengqin District, Zhuhai - Guangdong

Lithium titanate batteries are gaining traction as a viable solution for energy storage needs in applications such as power grid storage, electric vehicles, and high-capacity backup. This has been driven by the high-cycle life, high-power and high-durability of lithium titanate batteries, as well as by the growing push for more sustainable energy solutions.

(Yicai Global) Aug. 31 -- Gree Electric Appliances has successfully bid for a majority stake in energy storage device manufacturer Yinlong Energy, after a failed takeover attempt in 2016, as the Chinese home appliance giant looks to diversity its product portfolio. The application of Yinlong technology in Gree's car products which will
